A malden named Sat was a gossiping gal.

Her methods would stand some debate.

Whether stranger or pal, mattered nothing to Sal,
Har gossip was right up to date.

She employed every ruse to rustle the news, No newspaper ever was better, She'd goost away, away hour of the day, That is, if the neighbors would let her.

She was right on the job with her titter and sob, She'd ridicule even her mother, Every scandal unbared, with others she shared, Theo proceeded to search for another,

Where ladies were met, 'twas a pretty safe bet Sally's goseip would ruin their rally But they'd liston and sigh and then wonder why They couldn't all gossip like Sally.

But Sally took sick and died awfully quick, Twas a shock to the ilid and the young, If she ever gets breath, it's doubtful if death, Will quiet hav gossiping tongue, Business Again for 300

If she ever gets by its a mansion on high, Fag removed from this planet of pain, if they let Sally stay, they'll be sorry some day, For sha'll start with her goesip again.

THE DRICE FACTOR

in Printing

Buying printing is like buying any other commodity — the quality ill determined by the price you are willing to pay.

A 25c pair of socks certainly won't give you the same service as a III pair. The rougil printing and paper of a handbill as certainly would not add to the prestige of a business if used on a letterhiad.

Ontario Intelligencer

does not do "Cheap" printing. But it will give you GOOD printing at a fair price.

When you know penning or a row price.

When you kning a jeb of printing to the office the satup is controlly planned before it goes to the compactior. The most suitable paper and the best puality of inks are selected before it goes to the pressume. Core is taken that the printing is even in tone. Similar cone ill examined throughout every process, even to the packaging.

THE PRICE FACTOR in Printing Buying printing is like buying any other commodity — the quality is determined by the price you are willing to pay. A 25c pair of socks certainly won't give you the same service as a lill pair. The rough printing and paper of a handbill as certainly would not add to the prestige of a business if used on a letterhead.

The Commercial Printing Division of the Ontario Intelligencer

does not do "Cheap" printing. But II will give you GOOD printing at a fair price.

When you brining at a for price.
When you bring a job of printing to this effice the setup is corefully planned before it goes to the compositor. The most suitable paper and the best quality of inks are selected before it goes to the pressmon. LIVELY LINES

Arthur L. Burke

At Christmas time, to every clime, Old Santa Claus comes singling, Through snowy drift with reindeer swift And countless bells gringing.

When little tots are in their cots, And little tongues cause talking. He scrombles through the chimney flu And in the house comes walking.

Each year the same, he knows your name. He knows your house and number, With lights all out, he steels about When you are fast in slumber.

If boards should creak, you mustn't peek Or down the stairs come flocking. For each wee tot, he knows just what To place in every stocking.

Do you believe on Christmas eve, Old Santa will come llinging? Why, bless your heart, he's sure to start The Christmas bells aringing.

So just sleep tight, he'll come alright, And early in the moming You than will see the Christmae tree, With Santa's gifts adoming.

From pole to pole, this merry soul, The Christmas spirit faises On Christmas night, let's all unite in singing Santa's praises.

EXPENSIVE MACHINERY

for Printing

Yes, modern, speedy, occurate printing machinery costs a lot of money. But if a good machine will turn out three jobs where on older, slower machine turned out one, then it is good business to have expensive machinery.

We figure that if we can spend more time in preparation and less time in the actual printing process, we can give you good work at restonable prices. You will be better satisfied and we will do more work. So expensive machinery is the most economical for John 4 ste.

AN APPEAL AND A WARNING TO MOTORISTS

A Message from the Attorney General of Ontario and the Ontario Minister of Highways,

EVERY YEAR the Christmas season is marred by motor vehicle accidents. This year, in an effort to prevent the needless loss of life and damage to property, all traffic officers in Ontario have been directed to exercise rigid control of holiday traffic. The individuals who place their own interests first must be curbed in their disregard for others' safety. Severe m their disregard for others salety. Severe penalties, including the loss of license, will be imposed on those who cannot restrain their speed—who by any means impair their ability to drive—who in any way disregard the safety

The responsibility for danger-free driving same primarily with every motorist. The

individual must co-operate. He or she must realize that fines and jail terms, severe though they be, will not bring back life nor lessen the suffering of the injured or the anguish of their friends and relatives.

Each month, in Ontario, since September 1st, 1930, an average of 47 persons have been billed and 803 injured. The amount of property damage over these years is estimated at \$10,881,334. Accidents can be prevented. We believe and expect that the motorists of Outario will co-operate — will respond by exercising care and judgment to make this a safe and happy Christmas and New Year season.

The Story of Christmas

Wonderfully fresh is the old Christmas story, The first Christmas day for the nations of earth, When Jesus, the Christ Child from realish of glory Was worshipped as King at the some of His birth.

spherds, their flocks on the hillides attending we led to the place by a heavenly sign, a could believe as ill worship seem banding, see, so amazing, trunscendent, divine.

Then come a voice, "Few not, I am bringing Tidings of joy on this first Christmas morn," Heavenly carols the angels were singing, "Unto the world & Sevieur is born."

Wise men assembled in humble devotion, Mingling their praise with the gathering throng, Glory, to God, in the highest give glory, This was their prayer, the theme of their song.

We, too, may worship the King in His bounty, Tell of His coming to those all around, Give of our best in service and duty. Then will our hearts with His preises resound.
